

Customers, Staff and Community.

These are some of the Precautions we have implemented into our day to day operations.

Please note many of our Services are external and will not require close contact with Customers. However, where this may be required we are implementing precautions to ensure risks are minimised.

We can now consult with our Customers via facetime or phone should more details around provided service be required.

We are requesting Payments be made via EFTPOS or by Electronic Means Rather than Cash. We apologise for any inconvenience.

Our Technicians will be wearing PPE (Personal Protective Equipment) whenever they are on site, this includes gloves.

We will no longer be shaking hands, but please don't be offended you may now be greeted with foot taps, elbow pumps or even a Salute!

Be reassured all our Technicians have been trained in good personal hygiene.

We would request our Customers partner with us during this time and uphold these same principles so together we are protecting each other.

We will be monitoring the situation regularly so should further action be needed we will be prepared.

We look forward to assisting you during this challenging time.

If you have any queries please feel free to contact us, Ph: 9372 2670.
